

Retire the visitor book

AntlerSecurity · For building management offices

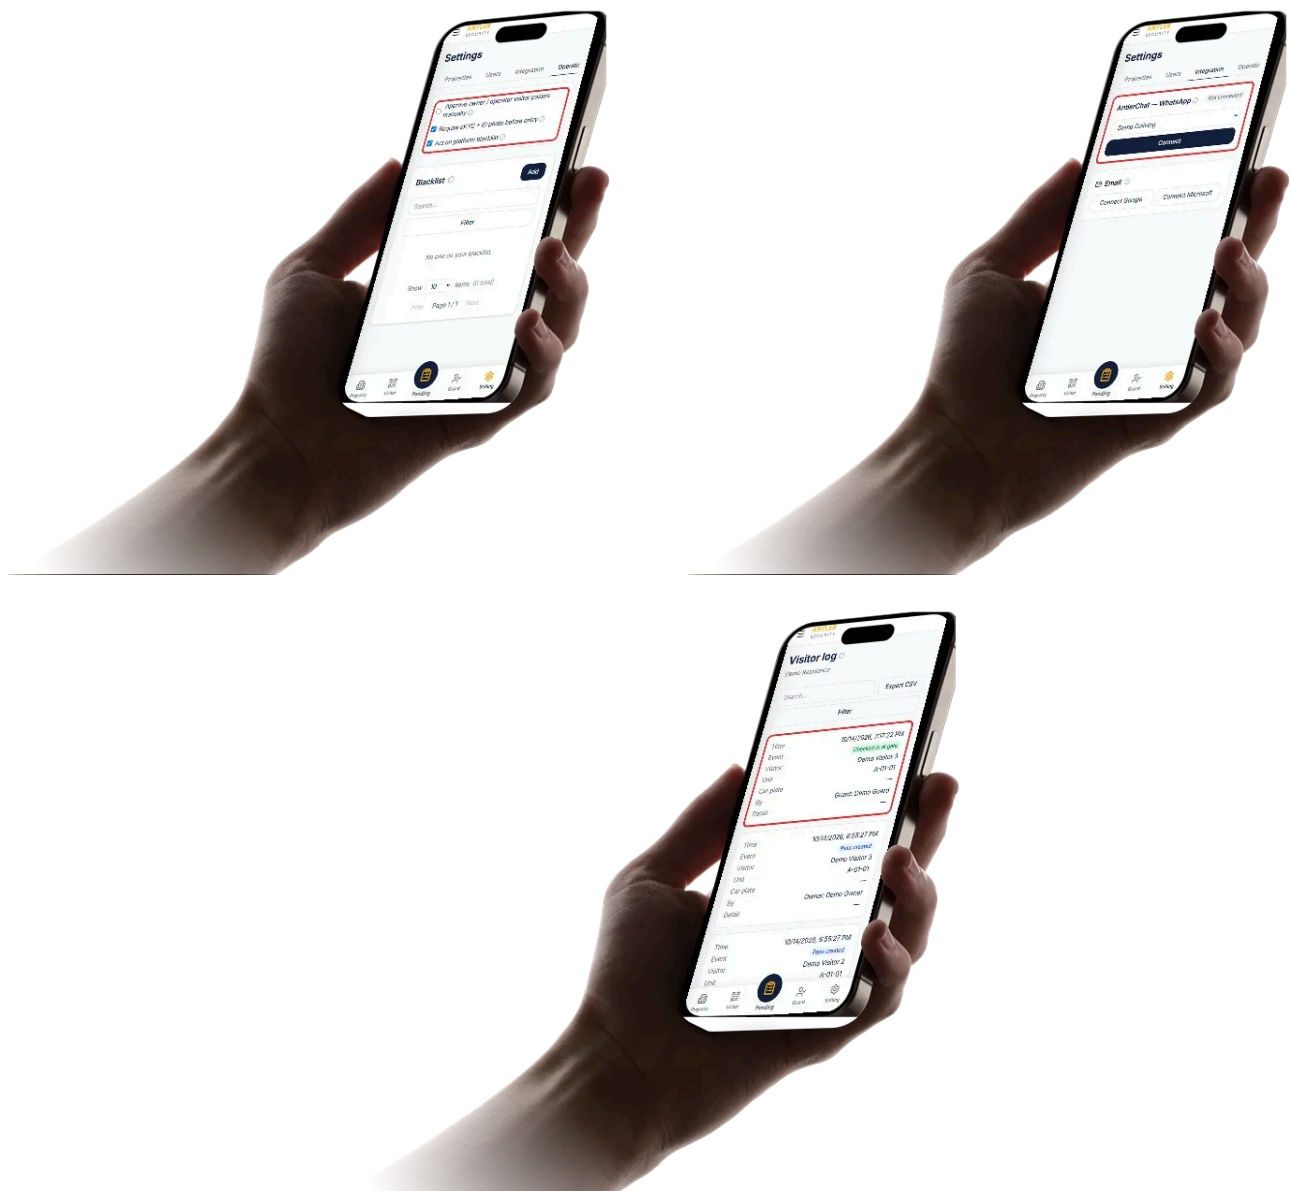

Free QR visitor passes. Owners send them, visitors verify their ID, guards scan once.

MANAGEMENT

Set the rules once

Choose what every visitor must do. The log fills itself.

- Pick the rules. eKYC only if you want it: RM10 per visitor.
- Passes go out on WhatsApp from the management number.
- Every visit lands in one log.

OWNER OR OPERATOR

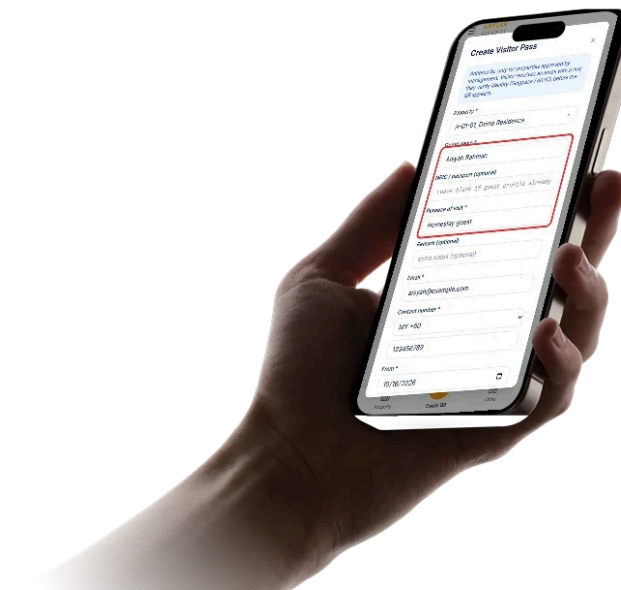

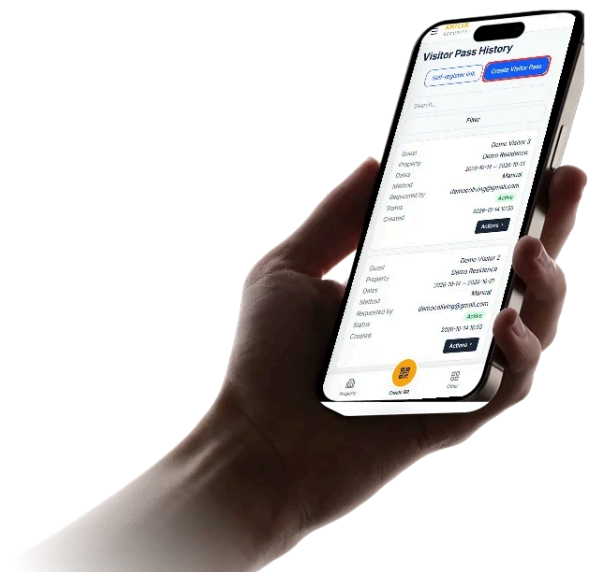

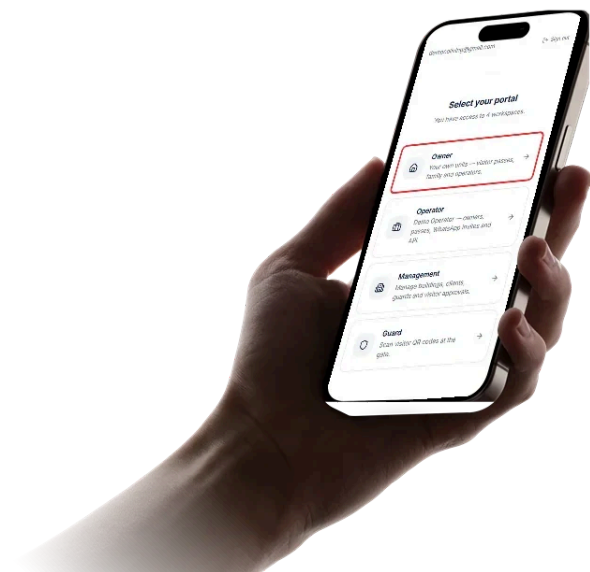

Passes from the owner's phone

Owners and operators send a pass in seconds.

One app for every role.

Every pass in one history.

Name, phone, dates. The visitor gets it on WhatsApp.

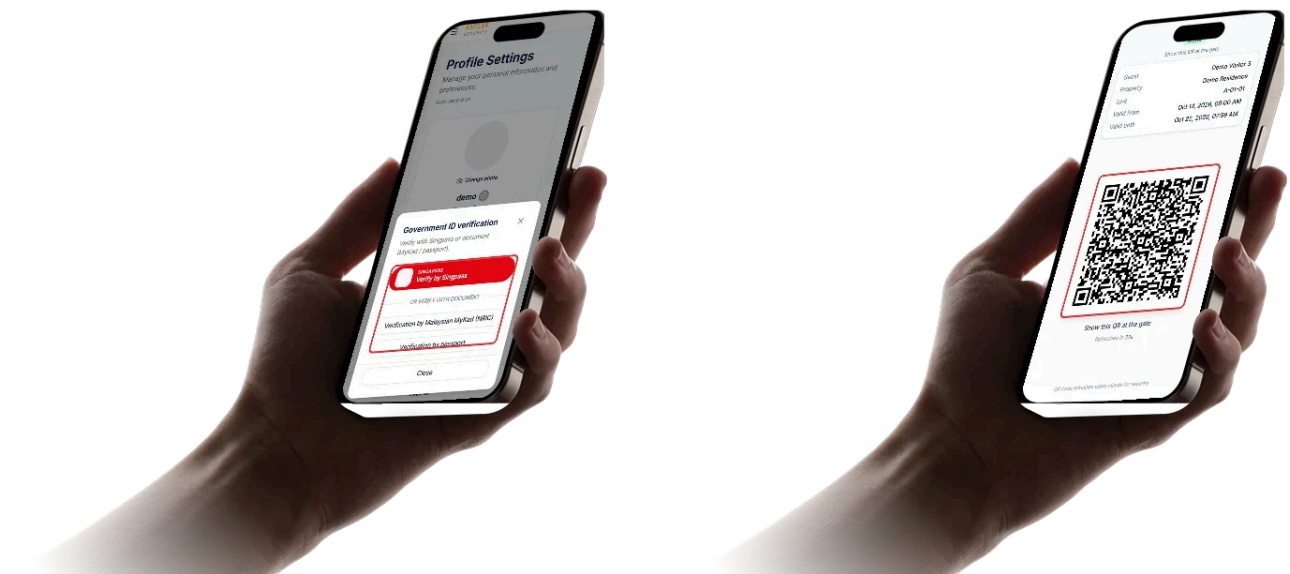

VISITOR

Verified before they arrive

No forms at the gate, no queue at the guardhouse.

Verify with MyKad, passport or Singpass.

Show the QR at the gate. It changes every minute.

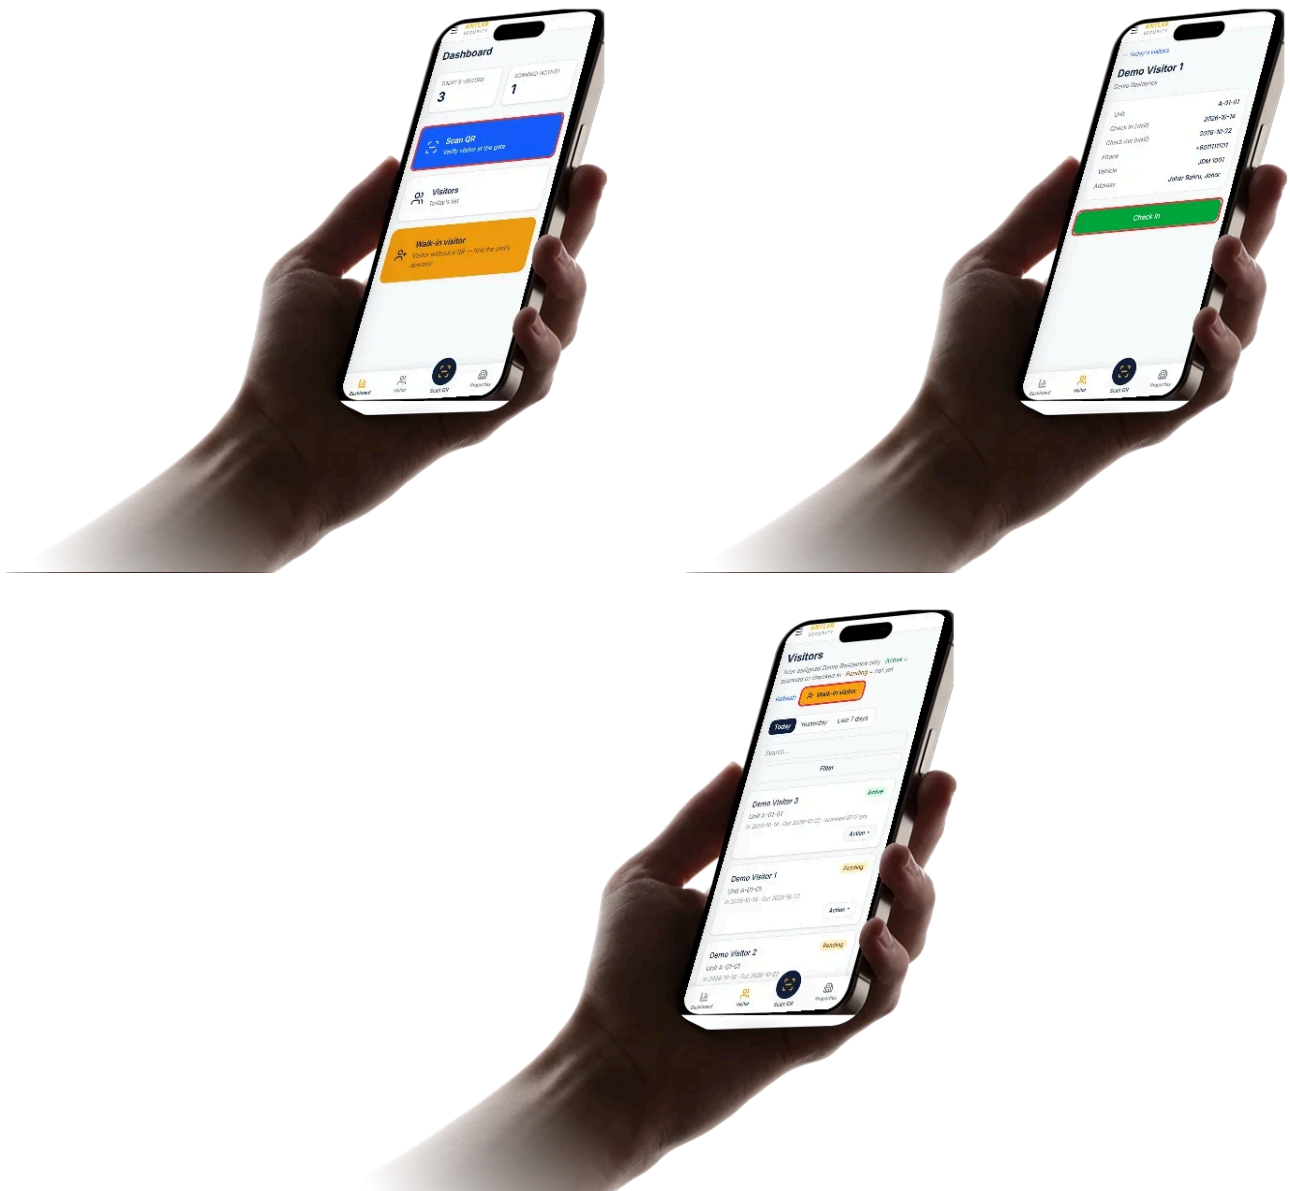

GUARD

Guards scan once

Scan, check, let them in. No visitor book.

- | One tap to scan the QR.
- | Visitor details on screen before check-in.
- | Walk-ins approved from the operator's phone.

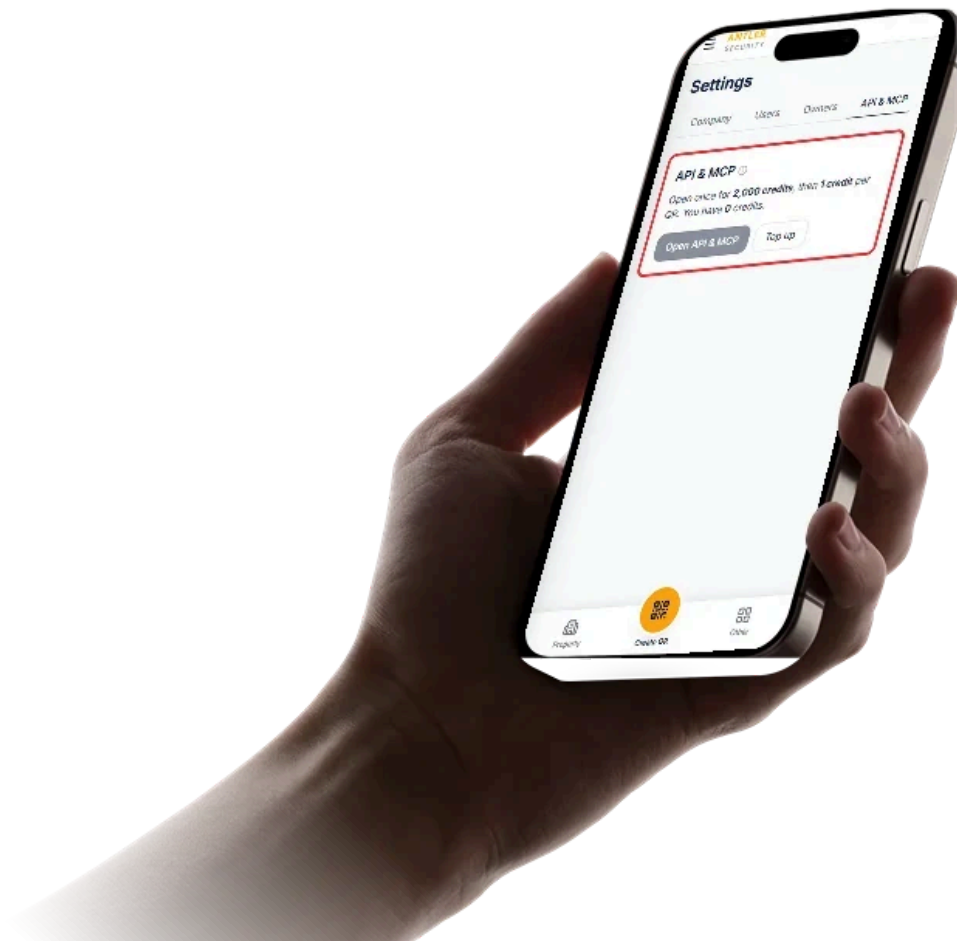

OPERATORS WITH THEIR OWN SYSTEM

Plug in your own system

Create passes straight from your PMS or AI agent.

API & MCP: RM2,000 to open, then RM1 per pass.

What the building pays

System, app, guards, passes

RM0

eKYC, if management requires it

RM10 / visitor

Connecting an existing access system

Quoted

Next step

Tell us the building and number of units. We demo it to your committee and guards.
